

# Proof of concept and application development for advanced control and automation projects

All trademarks are property of their respective owners.

We develop concepts and applications for modern control and automation projects including data acquisition and analysis. Providing engineering and project managing support throughout all project phases.

We are experienced and have reference projects in industries like Food and Beverage, Pharmaceutical, and General Automation.

- SCADA
- WinCC
- Process
- OEE
- URS
- FDS
- SDS
- SAT
- HMI
- PLC
- TIA portal
- Simatic
- Servo drives
- Graph
- Manufacturing
- Safety
- GAMP5
- CSV
- MindSphere

If you have a burning question about your project, would like to ask about our projects or you want to improve your production process, please do not hesitate to email us by scanning the code.
